

WHO'S MAKING A SPLASH IN OUR SCHOOLS THIS MONTH?

MAY FEATURED SPLASH GRANT TEACHER

Bryan Tylkowski is a first year science teacher at Central High School in Champaign, IL.

As a first-year science teacher, Bryan Tylkowski was getting too hot, too often! His classroom is located on the third floor of the high school and collects some serious heat during warm times of the year! Then on the days when the students have to use the Bunsen burners, he and they have a great deal of trouble concentrating on their work! He has made do with a few small fans in the classroom, but he really wanted to do more to help his students. His solution? With the money from his Splash Grant, Bryan is purchasing three efficient tower fans for his classroom. He hopes that his room will feel less like the inside of a swamp. He and his students should now find it much easier to keep their minds focused on their science projects and keep the heat only where it is supposed to be!

**CONGRATULATIONS,
BRYAN TYLKOWSKI!**
