Jeff Davis, a social studies teacher at Urbana High School happens to have a passion for the game of chess. Mr. Davis began a Chess Program at UHS because he knows that learning to play chess has many benefits beyond just playing a game. Interest in the club has grown and he needed more boards! Mr. Davis's Splash Grant money purchased additional chess boards and timers for his Chess Program. The equipment has made a big difference with introducing the game and developing the skills of 30 students this year. Students involved in the program develop analytical skills, concentration abilities and problem solving techniques that transfer well into more traditional courses. Next year, Mr. Davis hopes to organize a team to compete with other schools and maybe make it to the state level in competition! Congratulations, Jeff!
